AL RAYES LAUNDRY EQUIPMENT & ACCESSORIES

Founded in 2005 under the esteemed Al Rayes Group, Al Rayes Laundry Equipment & Accessories (ARLE) has evolved into a leading organization with a strong and reputable presence across Qatar and the Middle East.

Over the years, ARLE has earned recognition for delivering high-quality products and comprehensive solutions across multiple sectors, including Laundry Green Chemicals, Hospitality Hygiene, Industrial and Institutional Cleaning, Housekeeping, Sanitation Products, Automobile Cleaning, Janitorial Supplies, and Corporate Services. With an unwavering commitment to quality and sustainability, ARLE ensures that all products and services comply with globally recognized standards and certifications such as ISO, NSF, Vegan, and ZDHC – demonstrating our dedication to excellence, safety, and environmental responsibility.

Our chemical range includes globally trusted brands from Europe, America, China, and India, such as Bufo Chemicals, Rampi Chemicals, Atlantic Care, Ideal, Delta, A.L Wilson and Cole & Wilson. Each brand we represent is carefully selected to ensure superior performance, reliability, and long-term value for our clients.

ARLE is the authorized distributor and reseller of premium Industrial laundry equipment, including Dry cleaning machines, Washers, Dryers, Pressing Machines, Ironers, and shoe cleaning machines, from internationally acclaimed brands such as Danube, Imesa, Fimbimatic, Foltex, Jensen, Metal Progetti, CLM, Scarpavapor, and Renzacci. In addition, we are the sole authorized service and sales provider for FATTANK in Qatar, emphasizing our technical expertise and commitment to exceptional after-sales service and support.

Guided by innovation and powered by decades of expertise, Al Rayes Laundry Equipment & Accessories continues to lead transformative progress within the laundry and hygiene industries – championing environmental sustainability, energy efficiency, and water conservation – while creating enduring value for our customers, employees, and stakeholders.

MISSION

RESEARCH

OUR MISSION

AL Rayes Laundry Equipment & Accessories is dedicated to serving our clients with the highest standards of service and by delivering superior-quality laundry equipment and accessories that ensure reliable performance and outstanding results. Our mission is to build lasting trust by consistently exceeding customer expectations and adding real value to their businesses. We strive to strengthen our position as a leading brand and to be recognized among the top laundry equipment and accessories companies in Qatar, the Middle East, and the global market through quality, innovation, and professional excellence.

OUR VISION

Inspired by **Nature** as the foundation of innovation, AL Rayes Laundry Equipment & Accessories envisions a future where advanced laundry solutions coexist with environmental responsibility. We are committed to promoting a greener and safer industry by supporting the use of zero-discharge, non-hazardous chemicals and encouraging sustainable production practices. Through the adoption of green chemistry, clean technologies, and environmentally responsible solutions, we aim to help phase out hazardous laundry practices while positioning AL Rayes as a trusted leader in sustainable laundry equipment and accessories in Qatar, the Middle East, and the global market.

OUR VALUES

At AL Rayes Laundry Equipment & Accessories, our values define the way we work and serve our customers. We are committed to delivering high-quality and reliable laundry equipment that businesses can depend on every day. Through innovation and continuous improvement, we aim to provide modern solutions that increase efficiency and performance. We believe in building strong relationships with our customers through honesty, professionalism, and dedicated support. Our focus on excellence ensures that every product and service we provide meets the highest standards in the laundry industry.

SUSTAINABLE DEVELOPMENT GOALS

Quantura Q10+ Remote Dose is Brightwell Dispensers' single peristaltic pump system for dosing one chemical to top load laundry units.

Easy installation and configuration with reliable tube fittings make this system the ideal dosing solution.

KEY FEATURES

- Full load and half load button activation.
- LED's to indicate pump status: green – full load wash, yellow – half load wash, blue – in prime mode, red – unit is locked.
- Adjustable lock out time (2–60 minutes), red LED light illuminates when locked out to prevent overdosing.
- Adjustable full load run time (1–180 seconds).
- Adjustable pump delay time (0–20 minutes), LED light flashes to indicate that it is in delay mode.
- Optional prime feature.
- The Q10+ can be used for dish wash dosing, when the remote is removed, allowing timed, speed and probe mode option.
- Easy fit, plug and play handset with 5m cord.
- Relay mode operation when the handset is not connected.
- Every pump is pre-wired to reduce installation time.

BRIGHTWELL DOSING PUMP LAUNDRY ANCILLARIES

DESCRIPTION

SUCTION LANCES

Our suction lance allows you to distribute up to three dosing units from one chemical drum.

When connected to the BrightLogic alarm system it will sound a buzzer when the chemical reaches a critically low level.

KEY FEATURES

- Available for 10L, 25L, 60L, 200L drums.
- Three tubes feed up to three different dosing systems.
- An adjustable cap slides up and down the wand allowing you to set the required height for your chemical container.
- A float switch assembly calculates precise measurement of your chemical levels.

CODE: SPP-BRT-ACC00024

BRIGHTWELL DOSING PUMP LOW LEVEL CHEMICAL ALARM

DESCRIPTION

Connected to a dosing unit, or with its own power supply the Bright Logic low level alarm will monitor the level of up to 10 chemicals.

It will trigger a buzzer and a flashing light to alert the laundry staff if a chemical is about to run out.

An external alarm module with a 90db level from 30cm can be connected to the alarm module for use in extremely noisy environments.

CODE: SPP-BRT-ACC00025

BRIGHTWELL DOSING PUMP LAUNDRY MANIFOLD

DESCRIPTION

The flush manifold uses water pressure to pump your laundry chemicals over a long distance.

KEY FEATURES

- Modular design allows for easy upgrades.
- Easy installation and maintenance.
- Ability to mix low and high flow pumps.
- Inlet connectors are made from PVDF, one of the most resilient chemical materials on the market.
- Compact packaging which allows more units per carton, reducing logistical costs.

LAUNDRY DOSING SYSTEMS

Dosing System for One Washer Extractor & System for washers with digital programmer.

ECODOT SERIES HORUS-I MODEL

DESCRIPTION

- Dosing relay system with microprocessor for one washer extractor. It is possible to configure the water flushing time. Signal voltage range from 24V to 230V.

Code: EQT-DOS-ACC00049

HORUS SERIES HORUS-I MODEL

DESCRIPTION

- Electronic dosing system with display to program all the parameters of the equipment. Possibility to dose 2 different products by time controlled by 2 independent signals.

Code: EQT-DOS-ACC00050

TRITON SERIES TIMER ADJUSTABLE SYSTEM

DESCRIPTION

- Dosing system for one washer extractor with an optimized management.
- Improved menu design to speed up the start-up process of the equipment.
- Direct or remote communication to perform the programming process or extract data.
- LAVnet and LAVnet REMOTE management software.
- Up to 3 pumps and 30 formulas control.
- Available flow rates: 20 l/h.

Code: EQT-DOS-ACC00051

LAUNDRY DOSING SYSTEMS

Dosing System for One/Several Washer Extractor & Chemical products dosing system for one/Several washer extractor.

CORAL SERIES ONE WASHER EXTRACTOR

Code: EQT-DOS-ACC00054

DESCRIPTION

- Dosing system for one washer extractor with an optimized management
- With programming/display unit or Hand Held Pro unit to manage all the equipments.
- Direct or remote communication to perform the programming process or extract data
- LAVnet and LAVnet REMOTE management software
- Up to 8 pumps and 20 or 30 formulas for each washer extractor
- Available Low rates: 25l/h, 40l/h, 60l/h, 70l/h, 90l/h, 100l/h and 120l/h. Optional: 200l/h and 400l/h

MEDUSA SERIES ONE WASHER EXTRACTOR

Code: EQT-DOS-ACC00047

DESCRIPTION

- Dosing system for one washer extractor with an optimized management.
- With programming/display unit or Hand Held Pro unit to manage all the equipments.
- Direct or remote communication to perform the programming process or extract data.
- LAVnet and LAVnet REMOTE management software.
- Up to 8 pumps and 20 or 30 formulas for each washer extractor
- Available Low rates: 20l/h and 40l/h

MULTILAV SERIES SEVERAL WASHER EXTRACTOR

DESCRIPTION

- Centralized dosing system to control up to 8 washer extractors.
- Up to 8 pumps and 20 or 30 formulas for each washer extractor.
- Possibility of 1 or 2 manifolds installation.
- Direct or remote communication to perform the programming process or extract data.
- LAVnet and LAVnet REMOTE management software.
- Available peristaltic pump flow rates: 25l/h, 40l/h, 60l/h, 70l/h, 90l/h, 100l/h, 120l/h, 200l/h and 400l/h.
- Available with electromechanical and pneumatic pumps.
- Optional touchscreen

LAUNDRY DOSING SYSTEM

Dosing System for Several Washer Extractor & Chemical products dosing system for Several washer extractor.

PRIME MULTILAV SERIES SEVERAL WASHER EXTRACTOR

DESCRIPTION

- Compact centralized dosing system to control up to 8 washer extractors.
- Up to 8 pumps and 20 or 30 formulas for each washer extractor.
- Single chemical manifold.
- Direct or remote communication to perform the programming process or extract data.
- LAVnet and LAVnet REMOTE management software.
- Available peristaltic pump flow rates: 25l/h, 40l/h, 60l/h, 70l/h, 90l/h, 100l/h and 120l/h

Code: EQT-DOS-ACC00058

MONOBOMBA SERIES SEVERAL WASHER EXTRACTOR

*Optional touchscreen

DESCRIPTION

- Centralized dosing system to control up to 6 washer extractors with only 1 pump
- Automatic cleaning system for the product suction manifold & High-Low water flushing inle
- Volumetric product dosing using a low meter. 8 liquid products or 7 liquid products plus a diluted solid product
- 20 or 30 formulas for each washer extractor
- Direct or remote communication to perform the programming process or extract data
- LAVnet and LAVnet REMOTE management software

Code: EQT-DOS-ACC00059

LAUNDRY CONTINUOUS BATCH WASHER & COMMUNICATION

Dosing System for Several Washer Extractor & Chemical products dosing system for Several washer extractor.

PRIME MULTILAV SERIES CONTINUOUS BATCH WASHER

DESCRIPTION

- Centralized dosing system for tunnel washers.
- Up to 8 chemical product pumps.
- Relay working mode or configurable to manage up to 30 formulas.
- Optional integrated flushing system.
- Direct or remote communication to perform the programming process or extract data.
- LAVnet and LAVnet REMOTE management software.

Code: EQT-DOS-ACC00060

LAVnet & LAVnet REMOTE LAUNDRY COMMUNICATION

DESCRIPTION

- LAVnet and LAVnet REMOTE tools allows managing CORAL, MEDUSA, MULTILAV, MONOBOMBA, PRIME, TRITON and ORION systems. Direct or remote communication
- Real-time reading and modification of parameters
- Consumption statistics and cost per formula, washer/Identification of alarms and events
- Several password protected access levels
- LAVnet REMOTE is a cloud-based communication system compatible with any device.
